To: Paionia Nongsiej, Near MEECL,Mawkynioh, Umshing Block -1, Umshing, East Khasi Hills, Nehu Meghalaya – 793002

Dear Paionia,

This has reference to your application and subsequent interview you had with us. We are pleased to offer you the position of **Project Trainee** for our **Shillong Office** at the below address. **Medusind Solutions, Shillong Technology park Umsawli, New Shillong, Meghalaya – 793012. Landmark – NIFTCampus.** 

The internship period is for 6 months from the DOJ & your stipend for the internship period will be Rs. 15,000/- (Rupees Fifteen Thousand only) per month-

You are required to join the Organization for your internship on or before **09th Feb 2023**. On joining, please hand over copies of your age proof, qualification certificates, three passport-size photographs, cancelled cheque of your personal bank account, and a letter from your institute for enrolling for the internship. You are required to produce a letter from your Supervisor/Head of Department/Principal/ Institute, indicating your status in the Institution and "No Objection" for allowing you to undergo an Internship program for a period of six months.

On completion of the internship program, your performance will be reviewed by your Supervisor. If the performance is found to be satisfactory, and there are positions vacant for your roles, you will be considered for regular employment with the Company.

You will have to abide by the Company's code of conduct during your internship period.

Kindly sign the duplicate copy of this letter as a token of having received its original and acceptance of the same.

We warmly welcome you and hope that you make this period beneficial. If you are unable to join on the said date, the offer for the internship will stand null and void.

 ${}^*{\hbox{Please ensure to bring your Original Documents on the Date of Joining for the verification.}}\\$ 

Yours sincerely,

FOR MEDUSIND SOLUTIONS INDIA PRIVATE LIMITED

## **CERTIFICATE**

This is to certify that the project report entitled "MediHub ♡ MediRecipe | MediShop (Recipe management and e-commerce system) " is an approved work done by *Ms. Paionia Nongsiej*, 21STAMCA021 in the partial fulfilment of the requirement for the award of the degree of Master of Computer Application under North Eastern Hill University, Shillong from St. Anthony's College, Shillong.

Dr. Anjan Das
Director, MCA
St. Anthony's College Shillong
793001 Meghalaya

Department of Computer Science, St. Anthony's College, Shillong Affiliated to North Eastern Hill University, Shillong

## **CERTIFICATE**

This is to certify that the Project work titled "MediHub © MediRecipe | MediShop (Recipe management and e-commerce system)" bonafide work done by Ms. Paionia Nongsiej, North Eastern Hill University, 21STAMCA21, under my guidance during the sixth semester of the course.

**Internal Guide** 

Dr. Probidita
Roychoudhury (Head)
Associate
Professor

Project seminar was held on 13th July, 2023, at St. Anthony's College, Shillong

Date: 13th July, 2023 External Examiner

**ACKNOWLEDGEMENT** 

First of all I want to thank God for His grace and for giving me good health

and strength throughout the duration of the project and enabling me to grasp a vast

amount of knowledge and wisdom throughout the entire course.

I would like to thank our Director, *Dr. Anjan Das*, and my teachers for having

permitted me to carry out this project.

I also want to extend my gratitude towards my project guide, Ms. Probidita

**Roychoudry** for her guidance, support, patience, confidence and belief that she had

on me throughout the course of the project.

I would also like to thank *Medusind solution* for providing me with all the

facilities and infrastructure, which I needed, for the completion of the project.

I would also like to express my gratitude towards my external guide, Mr.

Ajay Pandey (Delivery manager, medusind), my buddy developers Alwina

songa and Divya Narkar (tech lead, medusind) for assigning me the project and

for guiding and supporting me throughout the project.

Finally, I would like to thank everyone who is involved in this project directly or

indirectly and for their support, care and encouragement throughout the course of this

project.

Paionia Nongsiej

## **Synopsis**

#### Title:

MediHub ♡ MediRecipe | MediShop (Recipe management and e-commerce system)

A Admin platform for recipe cum product management system.

## **Project Developer:**

Paionia Nongsiej MCA 6<sup>th</sup> Semester

#### **Proposed Development Environment:**

## **Description:**

The main objective of MediHub is to manage MediRecipe and Medishop, MediRecipe has an objective to display recipes that may treat chronic and acute conditions and various ailments and problems such as cardiovascular disease, depression, inflammation, and to boost the immune system. Medishop will display Products with respect to these recipes, resulting in easy access to these recipes.

#### **Features:**

#### Admin:

- 1. Single Admin Login.
- 2. Uploading and managing Recipes.
- 3. Creating different categories for organising products.
- 4. Uploading and managing Products.
- 5. View customer profiles

- 6. Ship items via different shipping companies
- 7. Viewing orders and updating order status of each customer.

#### User:

- 1. View recipes
- 2. Shop herbs, oils, etc

## **System Study**

## **Existing Systems analysed:**

#### 1. Serious Eats:

Serious Eats is a food and drink website visited by a lot of hungry readers every month, their audience visit for rigorously tested recipes, science-driven cooking techniques, robust equipment reviews, and stories that offer cultural and historical context to the foods we love to eat.

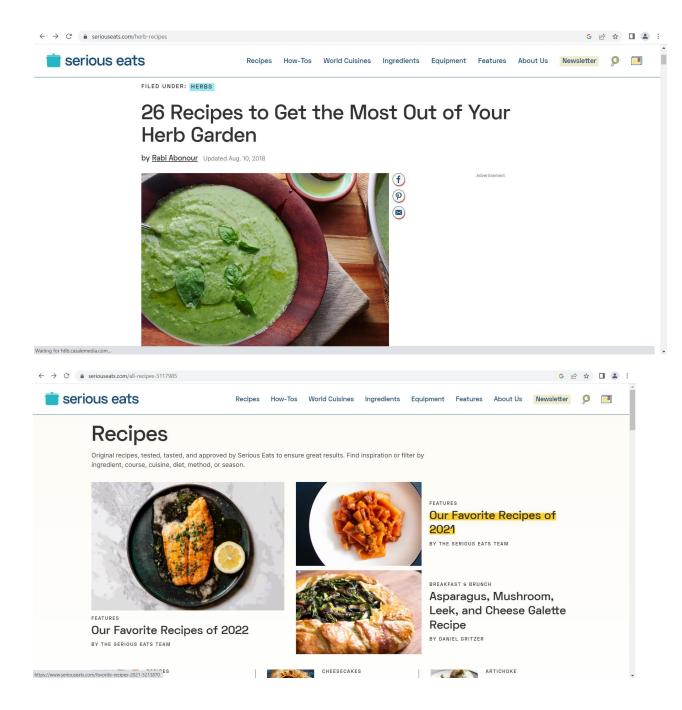

Since it was founded in 2006, Serious Eats's editorial staff and contributors have included recipe developers, practiced home cooks, professional chefs, scientists, historians, journalists, photographers, novelists, and more. Members of our editorial team come from publications like *America's Test Kitchen, Food & Wine, The New York Times*, and *Saveur*; most have also worked in the restaurant industry and/or attended culinary school. Across the board, they're a group of passionate, opinionated food enthusiasts with a drive to dive deep, get things right, and do justice to any topic they take on.

#### **SYSTEM FEATURES:**

- view recipes by categories
- view recipe instructions
- view ingredient guides and equipments
- view cuisines
- newsletter subscription
- search recipes

#### screenshots:

## 2. Feasting at Home:

Feasting at Home is a whole foods recipe blog with hundreds of seasonal, plantrich, globally-inspired, whole-food recipes. My hope is that this website will be a resource to inspire you to create your own simple healthy feasts at home and with others.

Owned by **Sylvia Fountaine**, **a** professional chef, former <u>restaurant owner</u>, and <u>caterer</u>, recently turned full-time blogger, based in the Pacific Northwest, and here is where you'll find *hundreds of seasonal*, **plant-rich**, globally-inspired, whole-food recipes.

#### Her page consist of:

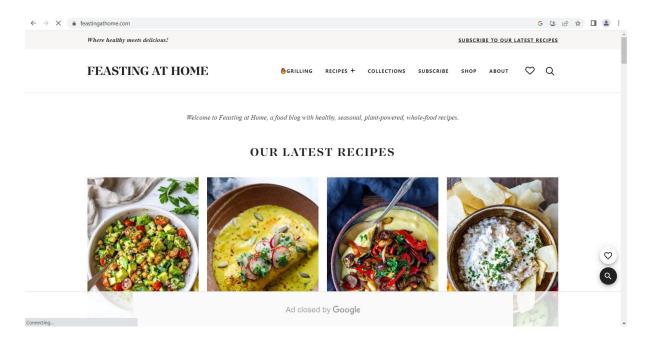

ADAPTABLE RECIPES: With so many mixed households – vegans and meat-eaters – both living under the same roof, cooking can get so complicated. So I've started creating "adaptable" recipes to help make cooking easier (one meal, two ways) and hopefully enjoyable again. For more of these kinds of recipes – visit the "Adaptable" category.

HEALTHY EASY DINNERS: Most of you have shared how short on time you are. I get it. Most of the recipes here in the last few years are geared towards you! Timesaving, healthy recipes that can be on the table in 30 minutes or need very little handson time. I created a category just for you "Fast and Easy Dinner Ideas"

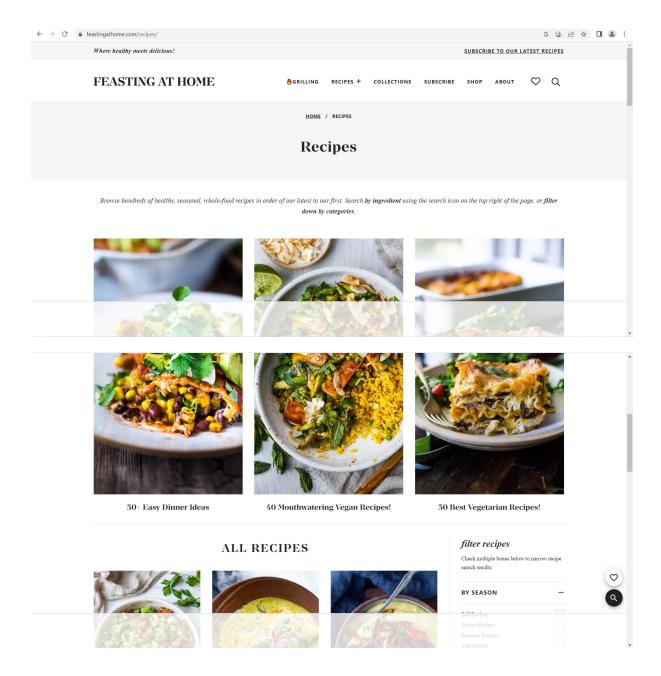

#### **SYSTEM FEATURES:**

- View recipes
- View collections of recipes
- Shop equipments
- Newsletter subscription
- Search recipes

#### screenshots:

## **Proposed System:**

# MediHub ♡ MediRecipe | MediShop (Recipe management and e-commerce system)

MediHub celebrates the magic and medicine of real foods like bone broth, seasonal fruits and vegetables, medicinal herbs, fermented vegetables and drinks, sourdough, healthy fats, naturally sweetened desserts, raw milk, and ancient grains.

We inform and empower this vibrant community of cooks, giving them the tools they need to make educated choices about the things that matter most - food, health, and family. And we embrace the challenges inherent in the effort to eat better with simple recipes, time-saving tips, and evidence-based recommendations.

Our mission is to bring these nutrient-dense foods back to the dinner table and to help families cook healthy, healing meals they love.

#### **SYSTEM FEATURES:**

#### Admin:

- Add, update, track and remove recipes
- Add categories and organize products according to the categories
- Add, update, track and remove Products
- View customers registered to the website
- Register shippers and shipping rates
- Ship products via different shipping companies
- Track orders and assign shippers to said orders

#### **Customer:**

Above mentioned features will be implemented for the customers UI, some of which includes:

- View recipes
- Shopping Products and Equipment

## **FEASIBILITY STUDY**

## **Economic Feasibility**

• Economic Feasibility: This website is an open source it can be easily available and is free of cost. so we can say that this project is economically feasible.

## **Behavioral Feasibility**

• Behavioral Feasibility: This application is easy to use and does not require any training to learn the working of this application.

## **Schedule Feasibility**

• Schedule Feasibility: The deadline for the strategy, plan and process regarding the development of this project is realistic and achievable, hence it is schedule feasible

## **Technical feasibility:**

- The hardware and software requirement for this project is very minimal and available in most devices these days.
- It does not require high performance processor

## **USER REQUIREMENT**

## Software requirement

USER	
Browser with stable Internet Connection	

DEVELOPER			
IDE Visual studio 2019			
framework	ASP.NET		
Language	HTML,CSS,javascript, C#		
Database	SQL server management studio

## **FUTURE ENHANCEMENT**

Some additional features that can be incorporated into the web application in the future are as follows:

- Charts: Charts will enable us to visually compare multiple sets of data with respect to sales, products, recipes etc.
- Multiple product/recipe images

## **CONCLUSION**

This project was built to allow Admin user to access customer information, order Details much easily and to provide an interface to add products, recipe, categories and shippers.

This project has indeed provided me with a great amount of knowledge and experience but most importantly it was through the help and support of many. Finally, I would like to state that I will continue with the development of the project so that it may further serve many people in the future.
